Consultant

Bio: Gabrielle Thomas is a consultant for M Squared Lasers in Berlin, Germany, working with their Innovation division to explore new research opportunities with scientists across Europe. She studied at Imperial College London, obtaining a Bachelor’s degree in Physics (2006), Master’s degree in Optics and Photonics (2007) and finally a PhD in Laser Physics (2011). Since completing her PhD, she has worked in both academic and commercial research environments in the UK and Germany, developing laser systems and novel applications of lasers, and has managed national, EU and European Space Agency funded projects. In 2016 she was selected as one of the World Economic Forum’s Young Scientists and in 2019 as an Ambassador for the Optical Society.
